

Comments on the issuance of the Patent Application  
# : 09/973,459 : Integrated Processes for Olefin and  
Polyolefin Production , 10/10/2001.

The invention described is very important in the chemical technology area. It describes novel new chemical processes based on integration of chemical sub-processes.

It is requested that the series of names in the issued <sup>patents</sup> application be changed as follows, after <sup>the</sup> request of the main inventor: Dr. Savvas Vasileiadis,

Ph.D. Chemical Engineering  
chief Scientist & Engineer  
Ziratech Technologies  
North Hills, CA.

First named inventor : Savvas Vasileiadis

Second named inventor: Zoe Ziaka-Vasileiadou

Los Angeles, CA

May 8, 2004
